Hi <\$firstname\$>,

People were so excited at last night's special training about how to save 50% or more on taxes every year... that we decided to run an encore.

Right now – while everyone is thinking about taxes -- is the best time to put in place the structures and key words to get the best deductions and the most money back from Uncle Sam.

I've got a great solution, but you have to read this entire email to understand it.

If you own real estate or plan to own it, you have an amazing chance to pay lower taxes than ever before. But you've got to take action or you'll keep on getting hit right in the wallet.

Because real estate is a business – giving you all the BEST business deductions.

But if you've never owned a business before...

...and you've always been someone else's employee. . .

you'll be blown away by all of the awesome ways Uncle Sam has given you to pay a lot less tax and keep a lot more of your money – because you own a business!.

In fact, many of the very wealthy and business owners like you have been using these strategies for years... sometimes to pay less tax than the people they employ!

I want to show you the details on how to do this, in a no-charge presentation. (Assuming there are still openings by the time you read this.)

You could never get this tax break when you're employed by someone else, but you can if you own a real estate business!

So if you ever wanted to know how some people are able to claim what "looks like" everyday living expenses as legitimate tax deductions...
